

InterCap releases its 2nd Annual Communication, Strategy and Policy Papers

The partners and project team of the InterCap project have developed and released its second volume of its reports laying out its Communication Vision, Strategy and Policy recommendations. These reports, developed to document the findings and views of the consortium and present a concrete plan and suggestions that will guide the project in its next steps forward. The three reports are expected to have a concrete contribution in the set objective of InterCap of enhancing critical understanding of migration and sustainable development among experts in education in the implementing countries and beyond. Moreover, they will help its bid to elevate the understanding of the relationship between the interdependent world, (in)-security and risk.

Communication Vision

The second Annual High-Level Communication Paper outlines the approach that InterCap partners will follow in the next project six months to maximize the dissemination effectiveness and engage relevant stakeholders. An approach that has been defined during the second yearly online meeting of the Community of Practice (CoP) Steering Committee held on the 28th of June 2019 and fine-tuned during the project meeting held between 24-26 October 2019 in Split and involved the implementation of a revised dissemination campaign and the engagement of new contacts.

You can find the paper [here](#).

Policy Vision

The paper presents and documents the work and findings of the implementing partners during the second year of the project, a period during which partners focused on furthering the issue of PC(S)D at the national level. It notes that the intensity and level of ambition of activities varied depending on the national environment, which is rather conducive in a smaller number of states, but in most cases there is little political will and PC(S)D is not considered a priority. Consequently, activities of partners were aimed at raising awareness, building capacities, and creating a strong multistakeholder dialogue at various levels in order to bring PC(S)D to the forefront of Governments.

Strategy Vision

The 2nd Transnational Annual Strategy Paper on Mentor Partnership presents the main strategic approach of the 2nd year of Mentor Partnership activity that sought to get deeper insights into teacher training institution curriculum and contribute to the successful implementation of InterCap Training Package. Its main aim was to check what exists in the training institutions that are involved in the InterCap project and how InterCap Training Package can be integrated into their existing curricula. This is a process that involved the participation from 12 mentor partners' institutions from 11 countries that were part of this review which included 7 open-ended questions on objectives, policies, strong and weak points, challenges and opportunities regarding the use/implementation of InterCap Training Package/Modules in teacher training. Given results gave deeper insights and useful information on how to successfully integrate and implement InterCap Training Package in everyday educational activities.
